IMPORTANT: See For Free extended for students with unused practice tests

This e-mail was sent to KYAE listserv.

Please read below for important information!

Thank you for participating in the *See For Free* promotion from September 22-October 3. Because of you, more than 215,000 GED Ready® practice tests were delivered and students were able to *See For Free* if they're ready for the real test.

Since the promotion ended on Friday, we've noticed that many students still have *See For Free* GED Ready® practice tests that they registered for, but didn't complete before the October 3 deadline.

Today, we're announcing an extension to the deadline to complete registered tests - students who have remaining *See For Free* GED Ready® practice tests in their account can now take their tests through Sunday, October 12.

Please note that this extension is only for students who have remaining *See For Free* GED Ready® practice tests ordered before October 3. No new GED Ready® practice tests can be ordered using the *See For Free* code.

If you have any questions, please contact communications@GEDtestingservice.com.
